## Ford and Bob on Same Ticket in Dakota Meeting

South Dakota Voters First To Express Presidential Preferences  
FORD SUPPORTERS ACTIVE  
Seek To Place Auto Magnate's Name On Michigan Preferential Ballot

Pierre, S. D.—First selection for the 1924 presidential primaries will be made Tuesday by the state proposal conventions of the Democratic and Republican and Farmer-Labor parties.

In the Democratic party the supporters of former Secretary of the Treasury William G. McAdoo, will do battle with sponsors of a campaign in behalf of Henry Ford, while in the Republican gathering, the advocates of Hiram Johnson and President Calvin Coolidge will face their test.

The Farmer-Labor assembly will have before it the names of Henry Ford and Senator Robert La Follette of Wisconsin. In addition to presidential preferences, the conventions must name majority candidates for the United States senate and all state officers.

START FORD DRIVE  
Adrian, Mich.—Petitions to have the name of Henry Ford placed on the Democratic presidential preference primary ballot in Michigan next spring have made their appearance here. Initiated by Edward Frensdorff, known throughout Michigan as a Democratic "wheel horse," one of the petitions is in a garage owned by S. W. Raymond, a brother-in-law of Mr. Ford's, another is in the possession of James W. Helme, who opposed Ford for the Democratic senatorial nomination in 1918, while a third is in the possession of Henry I. Bourne, former chairman of the Democratic committee of Lenawee co. Mr. Frensdorff's home.

State leaders in the Democratic organization thus far have withheld their indorsement of the movement. William A. Comstock, state chairman, and Frank A. Picard, a member of the state central committee have suggested Democrats should first find out whether Mr. Ford stands for Democratic principles before accepting him as a party leader. Mr. Frensdorff replied to this saying he had sufficient faith in Mr. Ford to know he would not accept the party standard unless he regarded himself as an adherent of Democratic party principles.

THIEVES PLUNDER SHOP IN GREEN BAY  
Rings And Watches Valued At \$1,000 Taken After Window Is Smashed  
Green Bay—Loot valued at about \$1,000 was secured early Tuesday from the display window of the W. H. Gruentz jewelry store here, after it had been broken by a brick hurled through the lower corner. Articles stolen included five diamond rings valued at \$100 or more each, and a dozen watches ranging in value from \$25 to \$50. Other articles may have been taken but a check-up has not yet revealed them.

CAPITOL PARK ENRICHED BY GIFT FROM FINANCIER  
Washington—The capital's system of natural parks already acknowledged as one of the most beautiful in the country was further enriched Tuesday by a gift of 78 acres from Charles C. Glover, chairman of the board of the Riggs National bank. The property lies in the northwest section near the American university grounds and was given for a parkway and children's playground. It is a mile long and a quarter of a mile wide and is the largest grant of land ever given to the district of Columbia.

### COMMISSION CONSENTS TO WHITE RIVER POWER PLANT

Madison—Authority to construct a dam for power purposes over the White river in Waushara co. was granted by the railroad commission Tuesday to the Dahlke and Giese co. of Neshkoro.

The commission authorized an adjustment of water rates by the city of Tomah which applied for increased rates. Meter basis rates will replace flat rates wherever possible, under the commissions order.

### SUSPECT MORON KIDNAPED GIRL

Chicago Police Seek Escaped Maniac Thought To Have Enticed Child, 12  
Chicago—After more than 36 hours of search, the police have concluded that 12-year-old Rose Borth, who disappeared from her home Sunday evening has been kidnapped by a moron.

Rose had been sent for groceries and then, with her cap, were found in a vacant lot near her home. A child who caught the direction to a girl answering Rose's description with a man about 45 years old shortly after the girl left home. She said the child looked as if she had been crying.

Another woman said that an hour later she was accosted at a point several blocks from where the first woman thought she had seen Rose, by a child who caught the direction to a corner near Rose's home.

The police said they were seeking a self styled "celestial angel and heavenly father," as the possible kidnapper of Rose. They said he was described in criminal records as moron and maniac. He is said to have escaped recently from a state hospital for the insane at Elgin where he was confined after conviction for attacking children in his religious cult under guise of performing a religious ceremony.

### AUTO KILLING GETS WOMAN 6 YEAR TERM

Mrs. Schultz Is First Of Her Sex Convicted Of Manslaughter In State  
Winona, Minn.—Mrs. Anna Schultz, 41, of this city, said to be the first woman automobile driver ever convicted of manslaughter in Minnesota, will be taken to the state reformatory at Shakopee Tuesday to begin serving a sentence of not to exceed five years at hard labor.

Mrs. Schultz surrendered to Sheriff Huck at the county jail late Monday after she was informed that commitment papers had been issued for her. Mrs. Schultz was convicted by a jury in district court, Oct. 3, of second degree manslaughter in connection with the death of Herman Koch, 62, who died as a result of injuries sustained July 29, when the automobile in which he was a passenger was struck by a car driven by Mrs. Schultz.

Evidence was submitted at the trial, alleging Mrs. Schultz was intoxicated at the time of the accident.

### CRAIG MAY REJECT COOLIDGE CLEMENCY

Washington—President Coolidge's refusal to pardon Charles L. Craig, comptroller of New York city, while granting him a remission of the 60-day sentence for contempt of court imposed by Federal Judge Hayer, is final, according to administration officials, regardless of whether he accepts the clemency or insists upon serving the term.

### Marconi Tests Plan To Direct Rays Of Radio

By Associated Press  
London—Signor Marconi said Tuesday that within the next few weeks he planned to begin tests between London and New York of his system of projecting radio waves in a desired direction. "You see that lamp there," he said, pointing to the electric light over the desk in his office in the Strand. "Its light rays spread all over the room in every direction but if you put a reflector behind it the rays shoot in only one direction. That's what we are doing with radio rays. Our experiment is putting a reflector behind them. Heretofore we have been unable to keep radio rays from going through a reflector, but now we finally have got a sort of screen which stops them."

### URGES INDUSTRY TO AID TRAINING OF COLLEGE MEN

Dean Of Wisconsin Asks Businessmen To Indicate Special Needs  
Milwaukee—Cooperation between industry and the university in its endeavor to train men for leadership in manufacturing was urged by Dean F. E. Turnure of the University of Wisconsin department of engineering in an address before the annual convention of the National Association of Engineering Teachers association.

"The teaching of the students who come to us is a large job," declared Dean Turnure, "and unless we know what is demanded of us by the man of industry we cannot turn out men from our engineering departments that fill the bill. Therefore, to ascertain these needs the National Association of Engineering Teachers has through a committee of its members made available a fund of \$100,000 to be used in making a thorough study of the vital needs of the industry."

"The training of young men is a serious matter, and at the University of Wisconsin it is your own sons that are largely involved," the professor told the manufacturers. "In engineering it is especially true that the training does not stop on commencement day."

Dean Turnure cited the fact that the engineering students at the university number 1,100 and that about 200 are graduated each year. There are 139 engineering schools and departments in the United States, graduating about 5,000 men annually.

### NELSON RETRACTS ATTACK ON 'STAR'

Wisconsin Representative Apologizes To Mellon Tax Reduction Backer  
Washington, D. C.—Representative Nelson of Wisconsin, chairman of the House insurgent group, Tuesday published a letter of apology to Frank B. Rowes, publisher of the Washington Star for a statement issued last week by the executive committee of the group, in which it was charged that Secretary Mellon's plan of income tax reduction would favorably affect the publisher, and that his paper had "aggressively supported" the proposal and "denounced" those who opposed it.

"We take pleasure in informing you that we have found in statements of the nature referred to in your paper," representative Nelson wrote to Mr. Rowes. "As to your income, we readily accept your statement and on behalf of the executive committee I wish to express to you our profound regret that we erroneously included the Star and its publisher in the statement, and I herewith tender to you the sincere apology of the executive committee for the mistake."

### POLICE GUARD CHURCHILL FROM ATTACK OF ROWDIES

London—The rowdiness that has marked so many political meetings in the present campaign, breaking up some and interfering with others, gave Winston Spencer Churchill a few anxious moments at Walthamstow Monday evening when the crowd in a demonstration against him smashed window of his automobile. The police were summoned to rescue from personal violence the Liberal candidate in whose behalf Mr. Churchill was speaking.

### GRAFT IMPLIED IN TEAPOT DOME OIL LEASE QUIZ

#### Senate Committee Probes Sale Of Blooded Stock To Secretary Fall

Washington—Harry F. Sinclair, who holds the lease to the Teapot Dome naval oil reserve, was recalled Tuesday by the senate public lands committee to testify regarding shipments of blooded stock from his New Jersey farm to Albert B. Fall, who, as secretary of the interior signed the lease.

From the account book Rancocas farm, G. D. Waldberg, Mr. Sinclair's auditor, testified that a check for \$1,100 was received from Mr. Fall's business partner May 24, 1922 in full payment for six hogs at \$50 each, one registered bull at \$200 and six registered cows at \$100 each. The stock had been shipped on Feb. 16, 1922, Waldberg said to the Fall ranch at Three Rivers, N. M.

In answer to questions by Senator Walsh, Democrat of Montana, he said there was no record in his office of correspondence on the subject and that he attached no significance to the delay in payment.

### MUD HAMPERS AID IN ITALIAN FLOOD

Rescue Parties Continue Search For Bodies Under Great Difficulties  
Bergamo, Italy—The work of finding the bodies of the 600 or more victims of last week's flood disaster continues over the extended zone devastated by the waters, but the rescue parties are encountering difficulties. The water has receded, leaving Bergamo valley buried under several feet of mud, which the rains kept soft, thus rendering progress almost impossible.

Food, clothing, blankets and bedding not only for the survivors but for the members of the relief parties, are carried with great difficulty in ox carts for all the mechanical means of moving supplies have been rendered useless.

Meanwhile the churches in the neighborhood are open and masses are sung continuously as the villagers pray for the cessation of the rains.

### SENTENCE FATHER, SON FOR LARCENY

Wausau Pair Convicted On Charges Of Robbing Railroad Cars  
Wausau—Peter E. Paulski, of near Pelican lake pleaded guilty here in circuit court to five charges of burglary and larceny and was sentenced to serve an eight year term in state prison at Waupun. His father, August Paulski, pleaded guilty to several charges of receiving and aiding in the concealment of stolen goods and was fined \$500 and the costs.

For a long time railroad detectives have sought to solve the problem of car robbers near Pelican lake and their efforts finally resulted in the arrest of Peter Paulski who made a full confession. His alleged accomplice in the actual robberies has not yet been apprehended. It was stated in court that in the opinion of the officers the elder Paulski was prompt in his acts by a desire to protect his son and not by a criminal inclination, this accounting for the lenient sentence.

Peter Paulski has three times been convicted of violations of the state prohibition laws and at the time of his arrest for the robberies was serving a term in the Oneida co. jail.

### ALLIES REGROUP FORCES IN RUHR

Paris—The regrouping of the military forces of occupation in the Ruhr with a view to diminishing their contact with the population has already begun, and is being progressively pursued it was officially announced here Tuesday. This is in line with the recent forecast that the Ruhr occupation might be reduced to an "invisible" status, owing to the encouraging reports of stabilization progress in that region.

### French Diver Rescued From Huge Octopus

Toulon, France—A diver working on the submerged wreck of the French battleship *Liberte* was Monday attacked by a huge octopus which did not relinquish its manifold embrace until the man's comrades had cut it to pieces.

The diver, Jean Negri, fought desperately with the monster under water for some time. He was able to free one arm with which he plunged a spear into the body of the creature. The octopus however, held fast whereupon Negri gave the signal to be hauled up. When his companions saw the writhing monster emerge they were panic stricken but the plight of their comrade appeared so serious that they went to his aid and freed him with their knives.

### COURTS CLOGGED WITH RUM CASES, DAUGHERTY SAYS

#### Report Of Attorney General Shows Big Increase In Crime

Washington—Litigation over violations of federal laws is on the increase in the United States, according to the annual report of Attorney General Daugherty made Tuesday to congress.

In a volume replete with statistics of the government's work in law enforcement, Daugherty outlined the increase in crime, ranging from big business to bootleggers, the attorney general and his staff detailed increases in prosecutions, civil as well as criminal, running the gamut of the federal statutes. Increases in convictions also were reported in the story of the vast amount of work of the department of justice to secure observance of the law.

Prohibition cases formed a large part of the department's work but there were large increases also in prosecuting violations of white slave, tax, public land, postal, banking and other federal regulations. Activity also was reported in pressing the war fraud cases.

Under the national prohibition act alone, Mrs. Michael Walker (Willebrandt), assistant attorney general in charge of prohibition and tax cases, reported 49,021 criminal and 4,109 civil cases were begun during the last fiscal year—an increase of 15,589 over the previous year. Federal courts, she said, were unable to keep abreast of the number of cases brought, although 42,570 criminal and 4,100 civil cases were disposed of during the year with 23,052 criminal and 4,964 civil cases left pending.

Rum smuggling, Mrs. Willebrandt's report added, is "the most gigantic criminal problem the United States ever faced on the high seas." She said the coast guard was not adequate with present equipment to patrol the long Atlantic and Pacific coasts effectively, and reiterated statistics of liquor transactions in the Bahamas islands indicating extensive smuggling into this country.

### FLEES TO WOODS AFTER GUN FIGHT

#### Moonshiner Kills Dry Sleuth And Wounds Two Others With Shotgun

Albion, O.—With a man in the morgue and two in a hospital here, victims of a gun battle between prohibition agents and moonshiners, federal agents are pursuing a man who fled to the woods Monday, police armed with riot guns Tuesday are scouring the woods for Marku, blamed by police for the shooting.

## Coolidge Message Delayed By Action Of G.O.P. Radicals

### YOUTH USES CARBOLIC TO KILL PAIN; DIES OF BURNS

Chipewa Falls—Carbolic acid paste applied by Tracy Wilson, 19, in effort to obtain relief from eczema pains caused his death at his home in Colfax 20 miles west of here Sunday night. Dr. C. A. Cooper who was called determined that the poison had penetrated every part of the boy's body. The boy purchased the paste and applied it without letting his parents know about it. He was found unconscious in his bedroom by his step-mother.

### REDS ORDER SURRENDER OF ROMANOFF DOCUMENTS

Moscow—The government has ordered all individuals, institutions, and government departments to hand over to the state all documents, memoirs, diaries and other manuscripts having any reference to the Romanoff dynasty in its last two reigns.

Some documents alleged to show the active participation of the Romanoffs in arranging the World War are said to have been secretly sent to Romanoff supporters abroad in order to develop their campaign of opposition.

### Coalition Is Sole Way Out Of Present Congress Deadlock

#### Lawrence Says Legislative Program May Be Fizzle Unless G. O. P. And Democrats Combine

BY DAVID LAWRENCE  
Copyright 1923 by the Post Pub. Co.  
Washington—Coalition government—a new line-up of conservatives from the Republican and Democratic parties as against the radical groups—is the only possible way out of the chaos in which congress finds itself today.

The legislative program will either be a fizzle due to deadlock and inactivity or else a temporary fusion of Democrats and Republicans will be made necessary on major questions. Congress has before it a number of important tasks which ordinarily would occupy the attention of both houses for more than a year. Obviously much of the program will not even be touched but it is too early to be sure of what will be given priority.

At present writing the following would seem to be the principal items on the program:

First: The usual appropriation bills. These will provoke many controversies especially since an effort will be made to cut even further the estimates of expenditures by the executive departments.

Second: Tax revision. There is unanimity on the proposal to reduce the taxes of persons of incomes below \$10,000. This cannot be done, however, without providing revenue to take the place of the amounts lost by reducing smaller incomes. To obtain the new revenue, the treasury desires surtaxes should be cut. The radicals think surtaxes should be retained at the present scale and other levies made besides, such as excess profits taxes. There is a disposition to increase the rate on inheritance taxes.

### OPPOSE RUM PACT

Third: Treaties before the senate. The general and special claims convention negotiated with Mexico will encounter little opposition but already there are evidences that a one-third bloc will endeavor to prevent the ratification of the proposed rum pact with Great Britain whereby British ships can bring into American ports liquor under seal and American coast guard vessels can pursue rum runners flying the British flag for twelve miles out. The "wet" will line up against this treaty as will many senators who think the American merchant marine will be put at a disadvantage. Then there are also the senators who think the constitution can not be superseded by a treaty of this kind and that the decision of the supreme court of the United States recently announced would be contradicted by the treaty. It's a legal point on which authorities differ. The total opponents may be sufficient to block ratification as two thirds are necessary to adopt the pact. There may be a fight also on the proposed treaty with Turkey negotiated at Lausanne as the sympathizers with the Greeks are lining up against it.

### Division Of Votes In Balloting For Speaker Remains Undecisive

#### MADDEN DECLINES OFFICE

Senate Meets And Adjourns Without Taking Rollcall To Determine Quorum  
Washington, D. C.—The insurgent bloc in the house, which has tied the hands of the new congress for refusal to support Speaker Gillett for reelection, militantly carried forward Tuesday its campaign of opposition.

As balloting in the speakership deadlock continued the division of votes was much the same as during the four futile ballots taken Monday. There are many rumors of a compromise, but the insurgent bloc met all inquiries by a declaration that they were as far as ever from surrendering.

Speaker Gillett, the Republican choice, and Representative Garrett of Tennessee endorsed by the Democrats were almost on an equality in Tuesday's voting and the total for each remained about ten votes short of the majority necessary to elect. The bulk of the insurgent success was cast, as on Monday, for Representative Cooper of Wisconsin.

SENATE INACTIVE  
Meantime the senate whose leaders maintain it can only meet and adjourn until the house has perfected its organization, held a brief session at which there was no attempt to transact business. Adjournment was taken immediately after the opening prayer, and without even a rollcall to develop whether a quorum was present.

Senate leaders on both the majority and minority sides however, were busy with assignments of senators to the standing committees and with preparations for the fight for senate reorganization which is to come after President Coolidge has delivered his first annual message to congress. Whether the president can carry out his plan of appearing at a joint session Wednesday also is contingent on a break in the deadlock in the house.

The leaders of the Republican house organization have taken the position that they cannot consistently discuss a compromise with the insurgent bloc as such, although they said Tuesday they were willing to listen to individual requests for changes in committee assignments and in rules—the two points on which the insurgents have focused their attack.

Although most of the Republican votes lost by Gillett were given to Cooper, a small contingent continued Tuesday to vote for Representative Madden of Illinois who has announced he does not want to be speaker and whose own vote was cast consistently for Gillett.

### BOOTLEGGERS FILL MINNESOTA'S JAILS

St. Paul, Minn.—With county jails in Minnesota filled to overflowing with persons convicted in Minneapolis federal court of violation of the prohibition laws, E. A. Rustad, United States marshal for Minnesota Tuesday was searching for additional jail accommodations for bootleggers to come to trial during the session of federal court here which opened Tuesday morning.

During the term just ended in Minneapolis, Federal Judge J. F. McGee disposed of nearly 500 cases most of them violations of the Volstead act. Many of the prisoners were sentenced to county jails for terms of 30, 60, 90 days and up.

## DUFFY DENOUNCES MELLON'S ATTACK ON SOLDIER BONUS

National Legion Officer Predicts Soldier Compensation Will Be Big Issue

Andrew Mellon's renewed efforts as secretary of the treasury to limit the payment of the adjusted compensation bill at the session of congress was the target of the address by P. J. Duffy, director of the American Legion, at the weekly meeting of Great John chapter of the American Legion in the hall Monday evening. Mr. Duffy, a national vice commander of the legion and former commander of the Wisconsin department.

He declared that compensation of veterans of the World war will be the greatest issue before the people during the next two months. He said that the most of the government's effort to limit the adjusted compensation bill is to limit the bonus to \$1000. He said that the government is trying to limit the bonus to \$1000. He said that the government is trying to limit the bonus to \$1000.

**PENALTY ON PATRIOTISM**  
"People say we can't pay for patriotism with money," said Mr. Duffy. "That is true and I agree that patriotism is not a commodity that can be bought. But the government is trying to limit the bonus to \$1000. He said that the government is trying to limit the bonus to \$1000."

Facts and figures were given to show how the government had adjusted handicaps of war on the part of all groups which had helped to win the struggle except the service men who went to the trenches for \$30 a month.

"The attention of the public is focused on the adjusted compensation bill because the secretary of the treasury, the fourth richest man in the United States, with the help of a few of his friends like Julius H. Barnes, president of the Chamber of Commerce of the United States, has come over with the declaration that there should be no bonus for the men who fought to win the war. He calls it a bonus instead of adjusted compensation, because a bonus is a gift."

At the time the late President Harding vetoed the adjusted compensation bill which had passed both the house and senate it was done on the promise of Mr. Mellon that there would be a deficit in the treasury of \$250,000,000. Instead the country wound up with a surplus of \$700,000,000 to \$900,000,000.

**GETS PUBLIC EAR**  
"It was just a mistake in arithmetic, I suppose," said Mr. Duffy. "Now Mr. Mellon comes out with a statement that this is the time to reduce taxes and that it can be done because of the treasury surplus. But he adds the words, 'providing the bonus law is not passed.' The public ear always can be caught with religious phrases and tactics."

The American Legion believes adjusted compensation is due the soldier he returned, and adopted a resolution to that effect at the national convention in San Francisco, with the backing of 11,500 legion posts. Now Mr. Mellon and others sneer at the legion, declaring that it was organized "for a raid on the United States treasury."

Mr. Duffy told of a fund of several hundred thousand dollars that had been raised by business interests to print and flood the nation with propaganda of what looked like a veterans' organization opposed to adjusted compensation. He reviewed the many good things the legion stands for, including Americanization, prevention of unscrupulous immigration, and assisting the disabled.

**HELPED ALL THE OTHERS**  
Each man's annual handicap financially because of service in the war would be fixed separately at \$70 to \$500. Mr. Duffy said the government had a definite and certain plan to take care of all who suffered handicap, except the former service men. Three billion dollars were paid contractors as a war adjustment, and about \$60 million because the war ended sooner than expected. The railroads were paid \$100,000,000 because of their financial handicap in winning the war. Civilian employees of the government who had safe jobs were paid \$100,000,000 because of the handicap of being in the war and a payment of the higher tax.

## SHE PREFERRED A HERO

When Ethel Ray was chosen as Illinois' prettiest girl in a statewide contest, folks expected to hear of her engagement to a millionaire. She surprised these folks by marrying a disabled war hero, who is attending college. They are happy.

ing cost. Wages of common labor went up and in shipyards men received \$12 to \$15 a day. While Andrew Mellon said the soldier bonus would wreck the treasury, he did not utter a word of protest when these adjustments were made. Mr. Duffy said.

Elections all have shown big majorities in favor of adjusted compensation. The speaker pointed out the great story of Belgium, England, Australia, Italy and France was to pay their soldiers. All have made adjustments "except" China, Japan and the United States," he said.

**SENATE DRAFTED BILL**  
The senate investigating committee studied this matter for a long time and drafted a bill providing payment over a period of 20 years, and found it would require \$50,000,000 each year for the first three years, much less than any of the other groups requested in adjustment.

"But Uncle Andy, who made \$20,000,000 out of the war through his connection with the fourth largest industry of the east says we can't afford the bonus. He didn't lose anything because of the war and he therefore hasn't the viewpoint of those who had to pay the cost of saving this nation."

Mr. Duffy also touched on the organizations which are trying to promote class hatred in this country and indicated how the legion always has combated such things as socialism and others which aimed to split up the nation. He said the gospel of hate has been preached too much, and too many politicians are trying to win their aims in this way. It is time, he said, that some organization like the legion was revealing the truth of these things.

**NEMACHECK ABLE TO GET SLIGHT MOVEMENT IN LEGS**

Charles Nemacheck, who was injured two weeks ago in a fall at the high school, is little improved at St. Elizabeth's hospital, according to information received from his brother on Monday. The boy is able to move his arms a little more freely than at first but he has no control of his legs. Through the constant effort of his doctor, he has been able to move his legs slightly, but there is no marked improvement from the paralytic condition which resulted from the fall.

## FAVOR GRAIN, CORN EXHIBIT FOR WINTER

Rural Affairs Committee Of C. of C. Favors Combined Show

The corn show which it was proposed to give in connection with the poultry show of Fox River Poultry and Pet Stock association may be combined with a small grain show, if the present plans of the rural affairs committee of the chamber of commerce are carried out.

In such event a separate hall will be required as the armory would be too small to accommodate the combined corn and grain show and the poultry show.

At a meeting of the rural affairs committee of the chamber of commerce Saturday afternoon there was quite a pronounced sentiment in favor of holding a combined corn and small grain show and the matter was left open until the next meeting, Sunday, Dec. 8, because of the absence of R. A. Amundsen, county agent.

If the proposed plan is carried out the date will be fixed at that time.

# NICHOLS AWARDED \$25,000 VERDICT AGAINST SLICKERS

Organizers Of Defunct Casket Company Lost Property At Nichols

A judgment awarding the Nichols Land company of Nichols damages in the sum of \$25,000, in the suit of the Land company against the All-American Casket company, the State Bank of Nichols and Frank H. Tandy, Edward A. Walters and J. A. Burrichter, was handed down in municipal court by Judge A. M. Spencer.

The plaintiff also is granted complete title to suit occupied by the casket company and its returned deposits of \$4,000 in the State Bank of Nichols.

Three of the defendants, namely, Frank H. Tandy, Edward A. Walters and J. A. Burrichter, are accused of conspiracy to defraud the plaintiff, Tandy by misrepresenting himself as an experienced casket manufacturer and Walters misrepresenting himself as a responsible building contractor.

## PROMISE FACTORY

The suit arises from an unfulfilled contract entered into by the plaintiff and Tandy as trustee of the All-American Casket company. The latter purchased from the land company the site in the village of Nichols for the casket company. The three individual defendants agreed to organize a company to occupy the building and employ not less than 20 persons within 30 days and 100 persons within six months. Judge Spencer also finds that Tandy agreed to deposit as a condition precedent to the payment by the plaintiff specified amounts totaling \$7,000 which was intended as new capital and as security. He deposited \$4,000 which up to the time of the suit was still in the State Bank of Nichols. This money, it is held, was advanced by the plaintiff and belongs to the plaintiff.

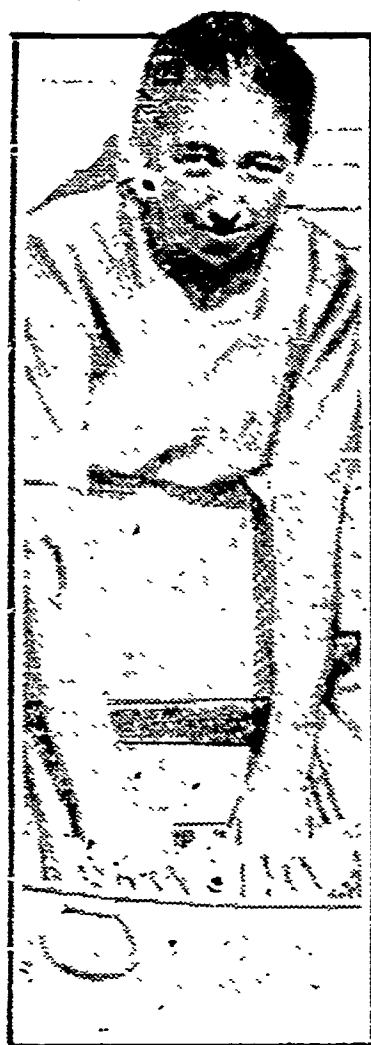

The building of the casket company was abandoned before completion. The workmanship was held to be poor and not in accordance with the terms of the contract and was not completed in the time stated. The six months in which the company was to employ 100 men expired May 5, 1923.

The plaintiff was represented by Attorney E. C. Smith of Seymour, Attorney A. C. Booser of Appleton originally appeared for the defendant Frank H. Tandy, but later withdrew from the action. There was no appearance in court on the part of any of the defendants. The All-American Casket company has no legal existence since 20 per cent of the stock was not sold nor was 20 per cent thereof paid in.

## Wealthy But Scorns Ease

Mrs. William Baker of Elkhorn, Wis., has just inherited \$175,000. But you wouldn't think it, seeing her bending over the wash tub. Money she says, is not going to make a bit of difference in her mode of living—except maybe she'll hire a girl to help her with the washing and ironing.

## BELOIT HAS FIFTEEN VETS BACK ON QUINT

Beloit's basketball practice began Monday afternoon at Beloit college with ten letter men on the squad. Fifteen of the candidates who reported to Coach Mills for the initial drill were members of the varsity squad last year. With only one of last year's Midwest championship team missing, Beloit looks forward to a brilliant season. Beloit has won the Midwest and state cage honors for two years, losing only two games in that time. No games have been scheduled for the Gold unit after Christmas. Fourteen contests will be played in the Midwest and state conference this season.

## RAILROADS ISSUE NEW SHIPPING RULE

Rail Companies Striving To Keep Own Cars On Their Rails

New instructions for obtaining empty freight cars from railroads have been sent to Appleton shippers. The instructions were prepared by the Car Service department of the American Railway association. The orders were effective Nov. 23.

Following is a part of the new order.

"All industries located on the C. & N. W. desiring empty cars to load on other lines, will place their orders direct with the C. & N. W. freight office. In the same manner industries located on the Soo Line will place their orders with the C. M. & St. P. with the freight office of that line. At the same time these orders are placed with various lines, notice should be given the office of the railroad whose line will receive the Line Haul, i. e., the line which will handle the car after it is loaded and delivered by the switching line. It is not necessary when placing the order with the switching line to give the destination, but it must be given in all cases when advising the line haul road of the order placed. It is also required when placing orders by phone or verbally that they be confirmed in writing. This arrangement is made to overcome excess switching.

All railroads are making strenuous efforts to confine equipment owned by them to the territory served by their own rails and to buy home to the owning line any foreign cars whenever possible. If not possible to load the owning line, then in the direction of the home line. For example, it is desired to overcome the loading of C. M. & St. P. cars to New York City, when a foreign car whose home is in the East could be utilized or loaded. Thus, a C. & N. W. car should not be loaded for San Francisco when a Union Pacific, Santa Fe or some other Western car might be utilized."

## RECONNECT WATER MAIN TO PROVIDE FIRE PROTECTION

City And Property Owners In Dispute Over Which Shall Maintain Bridge

A water main under a bridge at South Island at back of the Appleton Woolen mill is to be reconnected. It was decided by the Appleton Water commission at its meeting in the city hall Saturday. The main had been plugged on two ends following the collapse of the abutments of the bridge some time ago.

Repairs on the bridge have been delayed because of dispute between the city of Appleton and the property owners on the island as to who is required to maintain the bridge. Chief George P. McGowan of the fire department requested the commission in the interests of better fire protection to reconnect the main, regardless of what is to be done about the bridge.

A contract was renewed with the Matheson Alkali works of Niagara Falls, N. Y., whereby that company will furnish the local water department with another year's supply of chlorine for treatment of water. Chairman J. J. Plank and Secretary A. C. Remley were authorized to sign a contract with the Norwood Engineering company for furnishing equipment for the filters in the new addition to the filtration plant.

Bills and payroll in the sum of \$2,688.22 were allowed by the commission. The financial report for the month of October, showing a net profit of \$1,526.13 for the month, was adopted.

## DON'T MAIL TINSEL CARDS, P. O. WARNS

With the approach of the holiday season it is expected that there will be the usual mailing of Christmas post cards bearing pictures of glass, metal, tinsel, and other similar substances. In fact, they are already beginning to appear in the mails at the Appleton postoffice.

Local merchants have often been asked to discontinue the handling of such cards on account of their injurious nature. The particles often rub off and inflict wounds on the hands of carriers that sometimes result in blood poisoning. Most manufacturers of greeting cards have discontinued the manufacture of the tinsel cards, and the mailing of these cards is gradually becoming less each year. Appleton stores as a rule do not sell the cards, but there are a few establishments that resurrect an old stock every Christmas.

Tinsel cards are not permitted to be mailed except when enclosed in envelopes. Although merchants selling these cards include an envelope, many mailers make no use of the envelope. All such cards in the mails are ordered destroyed, and the number of cards destroyed amounts to several hundred a year in Appleton.

## NEW SCHOOLS MUST FIT CITY'S PURSE. ARCHITECTS TOLD PRAISE COUNTY'S DANCE HALL LAW

Board Of Education Discusses Features That Can Be Eliminated From Plans

Peckins, Fellows and Hamilton, architects who designed the junior high school buildings, have been notified that the plans of the school must be so arranged to make their cost come within the junior high school appropriation. Letters to this effect were sent out as a result of a special school board meeting at the high school Monday afternoon. Things that can be eliminated were discussed by the board.

F. S. Bradford, attorney for the board of education reported on the legal requirements in the contracts. He will make the same report to the council at its meeting Wednesday evening. According to the statutes, Mr. Bradford says, the contracts for the school must be signed by the board of public works, not the board of education. Changes were made in the 1921 session of the legislature in some phases of the law regarding public buildings and through an oversight, the contract for school now must be signed by the board of public works.

The convention is taking place during the time of the Wisconsin Products Exposition. Among those from this locality who will attend is Edward Haegele, Greenville.

County Christian Endeavor Union Adopts Resolution Commending Board

Outagamie-co board is commended for passage of the dance hall regulation ordinance by the Outagamie County Christian Endeavor union in a resolution adopted at its convention here Sunday. The union is made up of young people in nine churches of the county.

The resolution was adopted unanimously at a meeting attended by about 150 persons and reads: "We, the Outagamie County Christian Endeavor union, assembled in convention at Appleton, this second day of December, 1923, and recommending the following churches: Congregational, Evangelical, Reformed and Presbyterian churches of Appleton; Reformed and Congregational churches of Kaukauna; Presbyterian church of Kimberly; Moravian church of Freedom; Congregational church of Seymour, do hereby adopt the following resolutions:

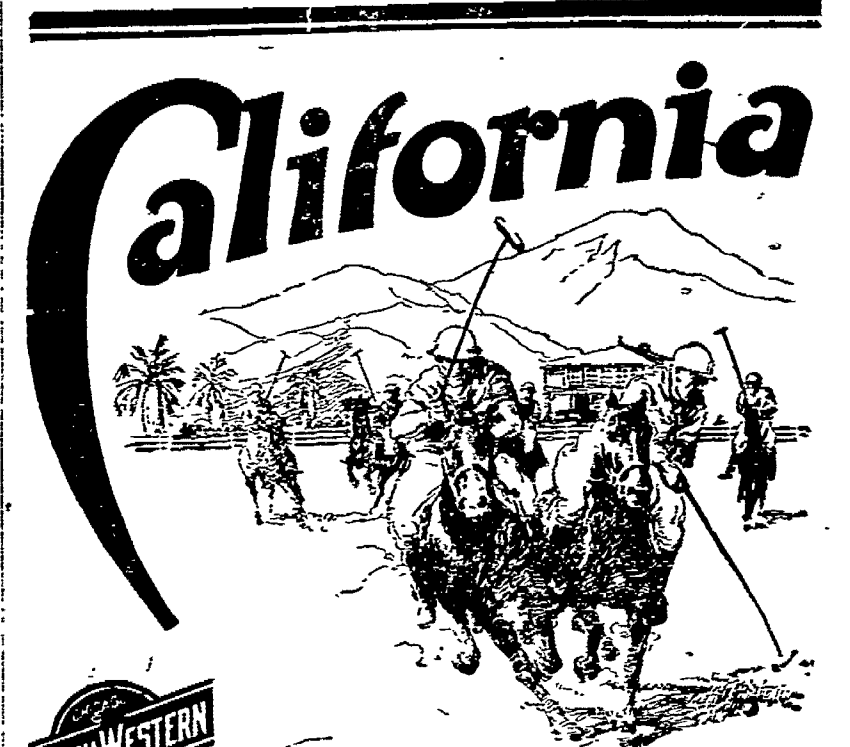

"I. That we commend the action of the board of supervisors of Outagamie-co in passing the ordinance providing for regulation and supervision of dance halls in said county.

"II. That a copy of the above resolution be sent to the Appleton Post-Crescent, the Kaukauna Times, the Seymour Press, Shiocton News, and Wisconsin Endeavorer.

"III. That the said resolutions be sent to the chairman of the board of supervisors."

## OUR FOREIGN POLICY

In his speech at Philadelphia Secretary Hughes made a comprehensive statement of America's foreign policy, that is, the policy of the present administration. We think on the whole it is a definition of principles to which a great majority of our people will subscribe. In reiterating the Monroe doctrine, Mr. Hughes enumerated nine "affirmative policies" of the United States with reference to republics in the Western hemisphere. These policies are an elaboration of the Monroe doctrine and are a frank statement of our attitude toward American republics to the south of us and toward them in their relations with each other. The assurances conveyed in this portion of the secretary's address ought to convince these countries not only of our commercial and political good will, but of our desire to render them unselfish service for their economic improvement, for the security of their institutions and for relations of peace and right understanding.

In the wider field of international relations Mr. Hughes makes some important declarations. The policy he announces here is not one of isolation, although some of the isolationists seem to think so, but is essentially one of cooperation. Mr. Hughes is opposed to political alliances in Europe, and we know of no Americans who will disagree with him on this proposition. No political alliances, so far as we are aware, are contemplated. Even the League of Nations could not be so construed, particularly if we limit it with the Lodge reservations. Furthermore, we must interpret Mr. Hughes' statements on the subject of alliances in the light of the fact that he was in principle a supporter of the League. We will quote verbatim from his speech:

Generally our policies toward Europe may thus be summarized: We are still opposed to alliances. We refuse to commit ourselves in advance with respect to the employment of the power of the United States in unknown contingencies. We reserve our judgment to act upon occasion as our sense of duty permits. We are opposed to discriminations against our nationals. We ask fair and equal opportunities in mandated territories, as they were acquired by the allies through our aid.

We desire to cooperate according to our historic policy in the peaceful settlement of international disputes which embrace the policy of judicial settlement of international disputes, justiciable. It is our purpose to cooperate in those varied humanitarian efforts which aim to minimize or prevent those evils which can be met adequately only by community of action.

Plainly we have here a declaration of policy sufficiently broad to cover practical cooperation in its widest form. It contains a reaffirmation of purpose to participate in the Permanent Court of International Justice. It is in every respect an international program that will permit us to act with Europe not only for Europe's recovery and benefit, but for the promotion of world peace. It is true, as Mr. Hughes states, that Europe still has a set of primary interests which are not ours, and that unity in war "did not avail to change the divergent national aims and policies in peace." With these matters we are not concerned. They are purely nationalistic. What we are concerned with is the international situation and the future of international relations, and from these things we could not escape if we would. Surely it is better to use our influence and power as a nation to improve the international situation, in which we have a vital part, and to conform it as far as possible to ways of accord and justice. For this idea and ideal Mr. Hughes unquestionably stands. In no sense can he be regarded as an aid or comfort to the isolationists.

## SALVAGE

One foreigner who is attracting slight attention in the United States, but who will probably see more than most visitors and turn his call to profit, is Mr. Francis

N. Pickett, who is known as "the salvage king of Great Britain."

When the British government was about to scrap \$75,000,000 of war material he paid \$15,000,000 for it, making money for himself and his country. He salvaged \$25,000,000 of munitions for France and Belgium.

There is an old saying that a penny saved is a penny earned; which is true. There is scarcely a business concern, large or small, which could not increase its profits by salvaging scrap and preventing waste. The waste in business is enormous.

## FOREST FIRES ARE COSTLY

Everybody is loser when the forests burn, and from five thousand to six thousand fires occur each year in the national forests alone.

Lightning causes from 25 to 30 per cent of the fires. The remaining 70 or 75 per cent are classed as "man-caused" fires, which are set by campers, smokers, railroads, brush burners, sawmills, and incendiaries, according to Charles Lathrop Pack in his "School Book of Forestry." The annual loss from forest fires in the federal forests varies from a few hundred thousands of dollars in favorable years to several million in particularly bad fire seasons. During the last few years, due to effective fire-fighting methods, the annual losses have been steadily reduced.

The best way of fighting forest fires is to prevent them. The forest officers do their best to reduce the chances for fire outbreaks in the government woodlands. They give away much dead timber that either has fallen or still is standing. Lumbermen who hold contracts to cut timber in the national forests are required to pile and burn all the slashings.

Dry grass is a serious fire menace. That is why grazing is encouraged in the forests. Rangers patrol the principal automobile roads to see that careless campers and tourists have not left burning campfires. Railroads are required to equip their locomotives with spark arresters. They also are obliged to keep their rights of way free of material which burns rapidly. Spark arresters are required also on logging engines.

But the individual has the great responsibility, as the figures in Mr. Pack's book easily show. Every man and woman who loves the out of doors should make it their personal business to use the greatest care when in that out of doors they love.

## A TREMENDOUS ECONOMIC LOSS

Forty-seven thousand nine hundred per cent profit sounds like a dream of "Get Rich Quick Wallingford" of some of the famous stocks whose records are "reassured" of wild-cat stock salesmen. However, this percentage of profit has gone to the city of Waukegan, Ill., from an investment of 8 cents per capita in health protection, and represent the economic savings to that community from its expenditures on health administration.

Not in the same class, but still showing profits that would make Wallingford or Ponzi envious, was the city of Evanston, Ill., which, from an investment of 31 cents per capita in health protection, realized a profit of 2,013 per cent. These figures, cited by Dr. Henry B. Hemenway in the American Journal of Public Health, were a part of an analysis of losses due to communicable disease in certain districts of Illinois. And as against these profits, the analysis showed, the per capita losses from these diseases in certain counties reached \$124 in one case and 37 per cent of the assessed valuation of property in another. "The man with the child can't work, and his farm runs to weeds," comments Dr. Hemenway. "The county which needlessly throws away an amount equivalent to from 10 to 35 per cent of its capital must be lacking in funds for ordinary transaction of business."

More than 150,000 children of the United States die each year before they are a year old. Various estimates have been made by expert economists of the value of the life of a child. One of these, prepared in 1909 by Professor Irving Fisher of Yale university for the Committee of One Hundred on National Health, placed the net value of a person's dollars as follows: At birth, \$90; At age 5, \$150; At age 10, \$2,000. Dr. Louis J. Dinkin of the Metropolitan Life Insurance company, in a more recent estimate, came to the conclusion that the hypothetical value of a child at age ten is more than \$7200. On this basis, the loss to the nation from these 150,000 deaths, most needless, can be easily reconceived.

## THE SPRAYING SEASON OPENS

A father—a father, mind you—tells me about visiting the schoolroom where his young son is incarcerated—that is not my word, but the father's—and there he found the spray flying in all directions and the teacher apparently unconscious of the deafening work the untutored youngsters were perpetrating. This anxious father—there is, I estimate, about one anxious father to every 3,000 anxious mothers, in our population—this father wished something to be done to protect the decent or educated class from the dirty, ignorant, vicious class in the schoolroom.

If this father would urge a campaign to protect the teachers and children against drafts, now, or wet feet, why he would have no trouble at all in starting a movement or something. But the man is a wild dreamer, a reformer, a fanatic, to suggest a campaign to teach the teachers the uncleanliness the bad manners and the perils of open face sneezing and coughing. This man's little boy has got to go masked or take his chances. The board of education cannot consider how far a cough will carry nor what there may be in the spray. That is not a matter which concerns the educational authorities. The man is respectfully referred to the city health department.

This boy's father must try first to dissuade the minds of the teachers, the educational authorities, and the general run of the nice community from the terrible little delusion that little Johnny catches his "cold" from the weather or from leaving off his overcoat or from getting his feet wet.

Meanwhile everybody is entitled to spread his spray upon all who venture within 10 feet of his wide open features. That's the way to shoot a sample of whatever little trouble you've caught across the aisle, counter, desk, bench or sidewalk to the poor defenseless creatures who happen to be near you.

Nothing can be done about it. Why, such laws or ordinances as we have about spitting are just a joke; if plain spitting is only a joke who wouldn't have the temerity to intimate that there is anything filthy, offensive or dangerous about spraying one's neighbors with the spit in minute droplets when one takes a notion to cough or sneeze in public?

Don't be Utopian, sir. Put a face mask on the board and bid them do their worst. A mask of ten layers of gauze or cheesecloth having not less than 32 threads to the inch. In this season of busy exchange that is about the only safe way to dress a child who must be exposed.

## QUESTIONS AND ANSWERS

Bone Felon

1. What is a bone felon? 2. What causes it? 3. Is there any danger of it spreading to a different place? 4. Will it disfigurement of the face? 5. Landing necessary? 6. What treatment is necessary to cure it? I have had it landed twice and it is still very sore and painful, causing much loss of sleep, and I am getting very thin.—Mrs. M. C. M.

Answer—1. A felon is inflammation plus formation under the tough, dense tissues of finger or thumb. It is under the periosteum (membrane covering bone) and may be called a bone felon, but it is often under a union sheath.

2. The cause is infection, with pus producing types of germs which are often present on the surface of the skin, particularly when the hands come in contact with unclean things or putrescible matter.

3. The germs get busy and so do the phagocytes or scavenger cells of the blood, but through the phagocytes mass in great numbers at the seat of infection and envelop and devour warlike hordes of the invaders, the idea of battle generally turns against them and their dead bodies pile up on the field of pus. The pus tends to spread along under the dense membrane.

4. A felon, unless promptly and properly treated is quite likely to leave disfigurement. Lucky for the victim if that is the only permanent damage.

5. No, landing is comparable with commanding a bully to please desist instead of bouncing the bully over your head. Landing is a mistake because it is so outrageously painful that no human being can be expected to endure it stoically enough to permit of complete drainage.

6. The most comfortable, the safest kind of treatment, which brings about the quickest cure with the least damage to the hand and the victim's morale, is a general anesthetic and careful incision to insure complete and perfect drainage. Anything short of this is a compromise with maltreatment. (Copyright, National Newspaper Service.)

## WHAT IS GOING ON IN THE WORLD

BY CHARLES F. STEWART

Dr. Stresemann is out as German chancellor, or prime minister. President Ebert had hard work to find anyone to take his job; it is so difficult because of the trouble with France. Finally Dr. Heinrich Albert agreed to have a try at it.

Stresemann asked for a vote of confidence from the Reichstag, or Parliament. That is, he asked the lawmakers to adopt a resolution saying, under the circumstances, they thought he as doing the best he could. The Reichstag voted the other way. That's why he quit.

Albert had charge of Germany's exhibit at the St. Louis world's fair. Later he was business adviser to the German embassy at Washington. After the World War started, but before America entered, while riding in a New York "L" train, he lost a valise containing important embassy papers. It fell into the hands of United States Secret Service men. The papers related to German war activities in this country. Their character was such as to strain relations between America and Germany and the incident had its part in the developments which led this country to enter the conflict.

## FRANCE BACKS POINCARÉ

Premier Poincaré of France put his popularity to the test of a vote, too, and HE won.

The Chamber of Deputies, 535 to 70, gave him a free hand to get out of Germany whatever he considers France entitled to, and to do it by any means he likes. It will be all right for him to cooperate with England and Italy if convenient or to play a lone hand for France if he thinks best.

Poincaré has bowed somewhat to English wishes in his treatment of Germany, but most of the French papers predict it will turn out badly, enabling France to say to England—"There, I told you so."

## ENGLAND'S TARIFF FIGHT

The campaign for England's national election is on.

The Conservatives, who have been in power for the last year, are trying to win again, on a high tariff platform. "See what protection has done for the United States," argues Stanley Baldwin, their leader.

"Yes," agrees David Lloyd George, Liberal and free-trade standard bearer, "see what it's done for the American merchant-fleet."

Labor hopes to win, with its plan to lift the burden of England's war debts by paying them RIGHT NOW. To do this, Labor proposes to take part of the fortunes of the rich. Only those with less than \$25,000 will escape, if Labor has its way. On very big fortunes it's planned to levy up to 60 per cent.

## OIL FRAUD SENTENCES

The government harvested the first fruits of its efforts against wildcat oil frauds in the form of the conviction in Texas of Dr. Frederick A. Cook, of north polar fame, and 13 associates, accused of selling stock in fake wells. Cook was sentenced to 14 years and 9 months in prison and the others to shorter terms. All appealed. Much press comment hints at a belief in some strange kind of Cook's brain which he can't altogether help.

Q. What is the difference between the Bureau of Entomology and the Bureau of Entomology? M. C. G.

A. Entomology is the branch of zoology that treats of insects. The Bureau of Entomology is under the Department of Agriculture. Ethnology is the science which treats of the division of mankind into races, their origin, distribution, and relations, and the peculiarities which characterize them. This Bureau is under the Smithsonian Institution.

Q. How is Sault Ste. Marie pronounced, and what does it mean? B. T. R.

A. Sault Ste. Marie is pronounced Soo Saint Marie. This is the French name for Saint Mary's Falls. A town in Ontario bears the name and also one on the Michigan side of the rapids. For many years, the population of the two towns was about the same, but the latest censuses show that Sault Ste. Marie, Ontario, has more than 21,000 inhabitants, while the Michigan city has less than 13,000.

Q. What is the salary of a quartermaster sergeant? W. T. B.

A. The War Department says that the pay of a master sergeant, the grade in which all quartermaster sergeants senior grade are now placed, is \$126 per month. Quartermaster sergeants, other than senior grade, are regarded as technical sergeants and their pay is 33¢ per month. This pay became effective July 1, 1922.

Q. What size are adobe bricks? D. R. F.

A. The sizes are usually 18x9x4 and 16x12x4. The larger ones are used as headers; the others, as stretchers. Adobe may be made of various natural clays. The bricks are molded and baked by being turned with alternate sides to the sun day by day, for a week or two. When sufficiently baked, they are stacked.

Q. Has Maine still great pine forests? E. W.

A. The primeval forests of white pine which gave the State the name of Pine Tree State have nearly all disappeared, but the second growth is being used to a large extent. Spruce forests are the most extensive, Hemlock, birch, balsam, fir, oak, maple, cedar, yellow pine, beech, basswood, elm, ash, and others are also found in Maine.

Q. What flag flies Afghanistan? W. G.

A. Afghanistan is completely independent. It is ruled by an hereditary prince.

## Marionettes Act Story Of Red Riding Hood

WHAT child who has listened time and time again to story of Little Red Riding Hood and what happened to her grandmother will not be delighted to see the story acted out by Tony Sarg's Marionettes at Lawrence Memorial chapel on Friday afternoon? This little story gives Tony Sarg the opportunity to use two types of characters which he loves, children and animals.

Besides the Little Red Riding Hood story, the marionettes will present the story of Hansel and Gretel with the Old Witch of the Gingerbread House. This will be most entertaining for the children, but many grownups who have learned these two stories are anxious to attend the matinee as well as the evening performance when Don Quixote will be given.

The Marionettes have been enthusiastically received in many of the cities around Chicago in the past week. Beginning Monday they are appearing at the Playhouse in Chicago where the seats range from \$1 to \$2.

# Serving Two Masters

In every newspaper in the country, there is to-day a full page advertisement on Victor Victrolas, Victor Artists and Victor Records.

As Appleton's Victor Dealer, we cannot urge too strongly that you play safe and make your Victor purchases from an exclusive Victor store.

We do not advertise Victor one day and something else the next day. He who recommends Victor this day and something not so good other days, is trying to serve two masters.

Three hundred and sixty five days a year we talk Victor supremacy.

We do not sell on comparison—for there can be no comparison with the best.

Therefore in full justice, no customer entering our store can be influenced to buy anything but the best—for nothing but the best is here.

## PRINTERS OF OLD WERE CRAFTSMEN OF GREAT ABILITY

Books Printed in Venice in Sixteenth Century Are in Great Demand

By Associated Press  
Chicago—Saved for posterity through the efforts of a legion of rare book fanciers who vie for their possession, numerous examples of that most famous sixteenth century contribution to the publishers' art, the Aldine Press, are finding their way in increasing numbers to the protecting shelves of the Newberry library here. They are staunch testimonials to the one-time creasiness of fine literary works.

For this is one of the chief characteristics of these old volumes, according to Dr. Pierce Butler, rare book custodian of the Newberry library, who says that many products of the Aldine Press were published in form that rivals that of the best of the twentieth century has to offer and sold at the astonishing price of \$400 shillings.

The Aldine Press was established by Aldus Manutius in Venice in 1499, shortly after the invention of printing. The firm was continued for nearly 75 years, first by his son and then his grandson, after the death of the founder. Some 900 works were produced in this time, of which samples of almost 100 are in the Newberry collection. Aldus specialized in works of Greek and Latin men of literary genius.

Almost as soon as published, the Aldine works were recognized as of unusual merit, according to Dr. Butler. Down through the years rare volumes have gained increasing popularity, especially those turned out in extra fine workmanship. The Aldine books made up the original and in some cases the only mediums through which works of some of the oldest Greek and Italian writers were transmitted to future generations.

## Old Glory Defies State In Fight Over Flagstaff

Wayland, Mich.—Alex J. Groesbeck, governor of Michigan, has been forced to effect a temporary truce in the miniature "civil war" which has been raging about the base of Wayland's memorial flagstaff, since of every one of this village's 1000 inhabitants.

The flagstaff stands in the center of the village—and, what is more, directly in the middle of "M. S." important Michigan state highway.

It has been there since settlers first hewed out their log cabins on the village site nearly a century ago.

It is base every political gathering, every open-air meeting in Wayland's history has been held. At its base the Civil and World War heroes were given Godspeed and later were welcomed back.

The local commercial association for weeks had been planning to raise a new shaft, bearing a tablet commemorating Wayland's war dead, thus further dignifying the ancient landmark.

Then the Grand Rapids Automobile Club petitioned the state to remove from state highways "all flag-poles or any other obstacle that may cause injury."

State troopers came to carry out the order. But Village Marshal John Devitt got there ahead of them and had an American flag streaming at the head of the staff.

The troopers eyed the flag. Then very carefully they took it down and removed it to the village hall. Marshal Devitt, not to be outwitted, again procured the standard and, before the state officers had returned, again had it blowing to the wind.

The troopers took council. While they debated, word from the governor arrived at the dramatic moment. "Let the flag wave," said the governor, in effect, "until an official hearing has been held and both sides heard."

So Marshal Devitt continues reverently to bear the flag to its staff each morning and remove it to the village hall each morning—and says he'll always continue to do so.

And, says Charles L. Yeakey, president of the local commercial club: "If the Grand Rapids Automobile Club doesn't draw its horns in, not one Wayland merchant will ever buy another dollar's worth of goods from a Grand Rapids wholesale house. We'll do our trading elsewhere—and I speak for everyone."

## 'STRAP OIL' WOULD HAVE SAVED TRIO

Bank Messenger Murderers In Toils Because They Had Life Too Easy At Home

New York—Good, sound paddlings administered by their fathers when they were boys, might have saved three young men from going down the path that leads to the murder trial courtroom—and beyond.

But their parents were too kindly, and the lure of adventure too great. So Tony Pantano, 23; Joe Diamond, 21, and his brother Morris, 27, find themselves in the toils of the law, with the death penalty not improbable.

All three are charged with the murder of two bank messengers who were shot down and killed by a gang that robbed them of \$15,000.

"It's the parents' laxity and failure properly to direct their children that leads to crime," says George Russell Peabody, vice president of the Marshall Sillman Movement that helps ex-convicts get back and keep straight. "Had these three boys had such direction their entire lives might have been different."

"The boys were not brought up in poverty. They took the path they did because there was no one to stop them except their parents—and they seemed to let their great kindness stay them from rigid direction."

"It's a failing too common with some loving fathers and mothers."

All three were "papa boys," they

lived in large, comfortable homes in Bensonhurst, a prosperous suburb, and had everything they ever desired.

And this 1923 tale of lust for money, midnight planning in suburban outskirts, wild flights and double-crossing, has for its master minds, according to the police, these three young men whose way through life might have been smoother had they in younger days been treated occasionally to a dose of "strap oil."

But their parents were too kindly, and the lure of adventure too great. So Tony Pantano, 23; Joe Diamond, 21, and his brother Morris, 27, find themselves in the toils of the law, with the death penalty not improbable.

All three are charged with the murder of two bank messengers who were shot down and killed by a gang that robbed them of \$15,000.

"It's the parents' laxity and failure properly to direct their children that leads to crime," says George Russell Peabody, vice president of the Marshall Sillman Movement that helps ex-convicts get back and keep straight. "Had these three boys had such direction their entire lives might have been different."

"The boys were not brought up in poverty. They took the path they did because there was no one to stop them except their parents—and they seemed to let their great kindness stay them from rigid direction."

"It's a failing too common with some loving fathers and mothers."

All three were "papa boys," they

lived in large, comfortable homes in Bensonhurst, a prosperous suburb, and had everything they ever desired.

And this 1923 tale of lust for money, midnight planning in suburban outskirts, wild flights and double-crossing, has for its master minds, according to the police, these three young men whose way through life might have been smoother had they in younger days been treated occasionally to a dose of "strap oil."

They were boys, might have saved three young men from going down the path that leads to the murder trial courtroom—and beyond.

The pilot did not attempt to get altitude, but confined his flying to from 10 to 155 feet from the ground. That he was able to stay aloft at even that altitude is considered a big step forward in aviation.

## 'THEYS' AND REST OF FOLKS MAKE UP TOWN, STEELE SAYS

Only 1 Per Cent Of People Rise To Leadership, Lions Are Told

Twenty years of observation has convinced J. D. Steele, head of the Pettibone-Peabody Co., that only about 1 per cent of the people of any community ever rise to a position of leadership in their communities, he told the Lions club at the weekly luncheon at the Conway hotel Monday noon. This 1 per cent of leaders, self-appointed as a general rule, are referred to as "theys" by the other 99 per cent of the people, Mr. Steele said. "Theys" are the men and women who crystallize into action the dormant public opinion of the other 99 per cent," Mr. Steele said. "If there is anything to be done, if there is any community venture on foot, 99 per cent of the people wonder 'what they are going to do.' It is the 99 per cent that usually does the kicking about what the 'theys' are doing. The solution of their difficulty is to leave the ranks of the 99 per cent and become 1 per centers. There is no admission ticket to the latter class; there are no special qualifications for membership.

**CAN FIND LEADERS**  
Mr. Steele said that in every organization, in every community and in every emergency, leaders naturally come to the front. "These leaders are men and women who can direct and who can assume responsibility and are quickly classified as 'theys' by the rest of the folks.

G. L. Carleton, vice president of the club, presided at the meeting pursuant to a plan announced last week. All of the club's vice presidents will have charge of the club's meetings for the month.

The Lions will hold their next meeting Monday evening when a program is to be presented. Lions were told to take their ladies to this meeting.

## 500 Hear Leaders Of Legion In Wisconsin At Veterans' Meeting

Businessmen, Soldiers And Sailors Listen To Addresses On Purposes Of Fighters' Organization

All records for attendance were broken at the meeting of Oney Johnson post of the American legion in Elk hall Monday evening when more than 500 turned out to share in a program the like of which never before has been attempted by the local veterans of the World war.

Appleton men turned out in large numbers and there were delegations also from posts at Kimberly, Kaukauna, Brillion, Kiel, Manitowish, Neenah, Green Bay, New London and elsewhere. A number of manufacturers, city officials and professional men also were guests of the post.

Vilas Whaley of Racine, commander of the Wisconsin department declared in an address that the legion will fight for the city, state and nation and their preservation as they fought during the war; that the aim of the legion is to make the community a better place to live.

**LOVES HIS NAVY**  
The rights of the war veterans to demand adjusted compensation was discussed by F. Ryan Duffy of Fond du Lac, first vice commander of the national legion department as recounted elsewhere in this paper. The closing address was by James H. McGilgan of Green Bay, national legion committeeman, who in his address in-  
timated to tell of his love for the navy in which he served. He recited the dangers the men on the ocean faced and how in their night vigils they expected the enemy to strike the blow which would send their ship to the bottom. He still wears the navy uniform, he said, and hopes when death comes he will be a member of the deeps with those who have gone down to their resting place after heroic service in defense of their country.

Among leaders of the American legion who were present at the meeting were Austin Peterson of Milwaukee, state adjutant, John Diener of Green Bay, Ninth district executive committeeman, W. H. Johnson of Kiel, Sixth district committeeman and Homer H. Benton, of Green Bay, past commander of Oney Johnson post. These men and the speakers were guests of the local executive committee at a dinner at Conway hotel previous to the meeting. L. Hugo Keller, commander of the post, acted as toastmaster.

Music was furnished during the gathering at Elk hall by an orchestra and vocal solos were given by George Mecholson and Miss Marion Hutchinson of Lawrence Conservatory. Character songs were sung by Miss Blanche Nelson of Rainbow Gardens.

**DUMBELLS DEBATE**  
Considerable amusement was furnished in a debate which was to settle for all time the question as to whether the soldier should have joined the navy and the sailor should have joined the army. Dr. W. J. Frawley took up the disadvantages of army life and George C. Dame acted likewise for the navy. The question was: "Resolved, that I am more dumb than you." It was difficult to judge from the laughter which side won.

Judge A. M. Spencer, one of the guests of the post, gave a short talk in which he praised the spirit of the legion and declared that the adjusted compensation act will be passed soon. F. E. Bachman, president of the Trades and Labor council, also spoke, declaring that the organization he represented would give all possible cooperation in the membership drive now in progress. Mayor Henry Reuter and A. K. Ellis also were called upon for talks. The visitors were given a demonstration of how the arms "chow line" was conducted when they were served with refreshments in army fashion.

Mr. Whaley in his address, praised the work that L. Hugo Keller is doing as chairman of the state membership drive, and also lauded the post because it had in its membership John Hantschel, the soldier who re-

presented Wisconsin at the funeral of the unknown soldier in Washington.

**CAN'T FORGET WAR**  
The general cry after peace was declared, said Mr. Whaley, was to forget the war and its horrors. The public was too willing to forget, but the men who fought for their country will never forget the war, nor the disabled soldiers who need their help.

"Yours is a memory that will go with you to the grave," he said. "It will remain green forever. You have built a great organization in memory of the men who fell in battle. Your cry is that the war never will be forgotten. You lived through those days of '17 and '18 with all their miseries, and happy tears never will cease to glisten when you recall the spirit of those men who sacrificed all for their country."

Describing his visit to the great memorial to the unknown soldier in Arlington cemetery at Washington, the speaker saw the words carved on a monument, "When we assumed the soldier we did not lay aside the citizen." These words are closely bound with the opening words of the legion preamble, "For God and country we associate ourselves together."

The legion is organized for good and will serve in times of peace as the men of the organization served in time of war, he said, directing his remarks to the business men in the audience.

## YOUNG WOMEN PACK CHRISTMAS BOXES FOR APACHE INDIANS

Two large boxes laden with toys, books, clothing, candy and other articles are on their way to Arizona to gladden the hearts of destitute Apache Indians at Christmas time. The boxes were packed by the Young Women's Missionary society of St. Paul Lutheran church, and include many things which have been sewed at the various meetings throughout the year. The Wisconsin Lutheran synod maintains eight missionaries among the Arizona Indians, and the distribution will be made by them. The missionary society is to meet Wednesday evening at the home of Miss Elizabeth Rohloff, 632 Hancock st.

They will fight for Appleton and the Fox river valley with only one aim, that of advancing its interests.

Mr. Whaley praised the Grand Army of the Republic and the Spanish-American war veterans. He told how the former had gone to Washington to prevent the government from taking down from in front of the city hall a monument of Lincoln because "it did not fit in with the architecture." He told also how the latter veterans went to Washington in protest against attempts of the war department to evict the widow of Gen. Funston.

The American legion, acting in the same spirit, will prevent injustice from being done the boys of '17, he said. It will work constantly for relief of its disabled comrades. Its purpose, thought and hope also is to make the people better citizens, building higher patriotism and making the city and state better places to live.

## MASONS EULOGIZE DECEASED MEMBERS

Annual Lodge Of Sorrow Will Be Held Sunday Afternoon In Masonic Hall

### A HERO AFTER EVERY WOMAN'S HEART

When it comes to getting the woman he wants, the Spanish-American hero of "The Woman Who Fooled Herself," which will be shown at the New Bijou Wednesday and Thursday has a method as startling and daring that makes a certain shik fade into insignificance. This hero walked boldly onto the stage of the cabinet where the girl he should have been doing the Dance of the Golden Helmet. Before everyone he snatched her by the wrist. When a friend tried to interfere with a revolver, the thing he held in his hand was disclosed as a rawhide lash with which he snapped the gun from the other's hand. Then he slung the girl over his shoulder and, slapping his whip, he beat his way through the crowd and carried her off.

You can't blame the young man entirely for his high-handed action, for the girl had deliberately flirted with him and then, when he had fallen madly in love with her, she laughed at him—said 'twas a game and now 'twas ended! Which was partly true. It started out as a trick, but she was the biggest loser for she had really fallen in love with her victim and thought the only way to save him from the plot against him was to deny his love.

However, as should be the way with every photoplay that seeks to entertain, all the obstacles are finally overcome so that the hero and heroine can live happily ever after. The line in this case is a dramatic and romantic story centering for the most part around a young girl who is brought up in an atmosphere of unconventional frivolity.

Brought up in such an environment it was natural that Patricia Pentris, the youngest daughter of the Pentris menage, should look up on love and marriage in the same light as the unconventional merry-makers with whom she was constant ly thrown.

Love was but a superficial passion and marriage only a matter of form. So reasoned Patricia Pentris and she laid her course accordingly. From one affair to the other she leaps with an amazing rapidity. She plays with fire and glories in the discomfort of her "victims" and then she meets real love.

Colleen Moore is charming as the naive young adventuress and Milton Sills is admirable in the role of the one lover, among the several admirers, whose love finally restores Patricia to a sane viewpoint of life.

The remainder of the cast, which handled their lesser roles quite as effectively, comprise Elliott Dexter, Myrtle Stedman, Sylvia Breamer, Betty Francisco, Phillips Smalley, Walter McGrail, Ben Lyon and others.

**TENSE DRAMA ADDS ZEST TO JAZZY FILM**  
Tense drama, charming romance, brightly comedy on a background of "Flapperism" and "Jazz." This is the picture which is painted by "Flaming Youth," a startling First National photodrama which opened yesterday at the Elite Theatre for a 4 days showing.

# ANNUAL TAX LEVY UP TO COUNCIL ON WEDNESDAY NIGHT

Finance Committee Completes  
Estimate Of City's Ex-  
penses For 1924

Voting on the annual tax levy will be the chief business at the regular meeting of the Appleton common council Wednesday evening. A tentative budget has been agreed upon by the finance committee after several meetings, and that budget will be the basis of the 1924 tax to be levied by the council Wednesday evening.

E. L. Wilson, city clerk, received the Appleton common council's order to levy and state taxes on Monday. The city income tax roll was received in the clerk's office last Saturday and is now being checked up for totals. Collection of taxes may be delayed by a week or ten days this year as a result of the delay in receiving the income tax roll and the county tax apportionment.

Bids for furnishing the Appleton fire department with a car for the chief will be opened at the common meeting and contract will be awarded. An amendment to the zoning ordinance creating a new local business district in the Fourth ward may be voted upon. A public hearing was scheduled to be conducted by the ordinance committee in the city hall Monday evening, but no one appeared at the meeting to protest the changes.

# STATE MEETING OF GRANGE HERE TODAY

Public Invited To Open Meeting  
In Vocational School  
Tonight

The annual state convention of the Wisconsin Grange opened Tuesday afternoon in Pythian hall with between fifty and sixty delegates in attendance. Herman Ihde, Neenah, state master, is presiding. Tuesday evening there will be a public program in the vocational school at which W. W. Deal, national chaplain and master of the Idaho grange, will be the speaker. A musical program and motion pictures taken during the 1919 national convention in Boston will be presented.

A business meeting will be held Wednesday morning and another in the afternoon. In the evening new officers will be elected and the sixth degree exemplified. The convention closes Thursday after installation of new officers.

# INCOME TAX BLANKS GO IN MAILS EARLY IN 1924

Federal income tax blanks for individuals and corporations will be placed in the mails Jan. 2. A. H. Wilkinson, collector of internal revenue for Wisconsin, has announced. This will be the earliest date on which blanks have ever been mailed out. Returns must be made to the internal revenue office not later than March 15. The department hopes that by sending out the blanks early it will avoid delay in making returns as has been the experience in the past. Mr. Wilkinson declared that many taxpayers leave for the south early in the year and that in past years they failed to receive the blanks before they departed.

# BOY BREAKS SHOULDER AND ARM IN TOMB

Charles Melzer, 12 year old son of Mr. and Mrs. Arthur Melzer, 749 Clark-st., suffered a broken left shoulder and arm when he fell on the cement steps of the T. M. C. A. at 720 Monday evening. The boy was coming out of the building when he tripped the step and fell, striking his left side. There is a break in the shoulder and in the arm just below the shoulder.

# RELIEVED BOY'S COUGH

Mrs. L. Van Belle, Pencop, Mont., writes, "I like your Cough Medicine very well. My little boy, 6 years old, had a very bad cough and after using FOLEY'S HONEY AND TAR COMPOUND he secured relief." For coughs, colds and hoarseness there is no better remedy on the market today than FOLEY'S HONEY AND TAR COMPOUND. It has stood the test of time, serving three generations. Get the genuine, refuse substitutes. Sold everywhere. adv

# Nationwide Audience Hears Appleton Artists In Radio Program

Telegrams from distant states and telephone messages from dozens of cities within reasonable telephoning distance attested to the popularity of the splendid concert broadcasted by Appleton artists from radio station WPAH at Waupaca Monday night on the auspices of the Appleton Post-Crescent. The telegrams and messages congratulated the artists individually and collectively and there were repeated calls for additional numbers and encores.

At least a thousand people in Appleton heard the concert. Every home in which there is a radio set was tuned in for the Waupaca station and radio parties were held in all parts of the city. At the Y. M. C. A. nearly two hundred the program and groups of from 50 to 100 were gathered in stores

# ORCHESTRA PLAYS 94 CHICAGO CONCERTS

Musical Organization Which  
Plays Here In Great De-  
mand In Home City

The Chicago Symphony Orchestra, which will come to Appleton on Dec. 11 to play one evening performance at Lawrence Memorial chapel plays 94 concerts in Chicago to concert houses during each season. It gives five of its six series in Chicago in its own hall, the other at the University of Chicago.

One series is for 15 successive Friday afternoon, another is for 15 successive Saturday nights, another is a series of 15 popular concerts and there are two series of six children's concerts. The sixth series is of ten symphony concerts at the university.

Milwaukee demands a series of ten symphony concerts and two children's concerts each year while Aurora, Ill., demands a series of three symphonies and two children's concerts. For the Friday afternoon and Saturday evening concerts in Chicago, 94 per cent of the tickets for the boxes, main floor and balcony are sold on season subscription with a waiting list of several hundred. The gallery for both series is held for single admission and more than 1000 seats are offered in the gallery one week in advance. These are taken almost at once.

# POSTOFFICE JAMMED WITH MAIL WORKERS

Postmaster Zuehlke Asks For  
Addition To Balcony In  
Mailing Room

The Appleton postoffice which constantly has been hard pressed for space now has been forced to make another change in the interior arrangement. An increase in the postal business a few years ago forced the rural mail carriers with their distributing cases up to the mezzanine floor where the city carriers distributed their mail. Now it has been necessary to make more room for city carriers in the balcony, and two rural carriers have set up their cases in the basement.

Postmaster Zuehlke hopes that something will be done in the present session of congress to relieve the congestion here. Appleton last year was included among 18 cities of the United States where additions to postoffices were recommended in a bill before congress. Improvements recommended for Appleton amounted to \$150,000, to take care partly of the present emergency Mr. Zuehlke has applied to Washington for the provision of an addition over the mail room to adjoining the balcony.

**BEG PARDON**  
Supervisor Joseph Bayer's name was omitted in the report of Appleton supervisors who voted against accepting the report of the equalization committee of the county board. Mr. Bayer represents the Third ward on the board.

# SIX MORE DRIVERS IGNORE STOP SIGNS

Six arrests of automobile drivers for failing to stop at arterial highway signs were made by the Appleton police Monday evening. Walter Lemke and William Rosenthal, both of Appleton, were arrested by Patrol-

man Frank Johnson, and were to appear in municipal court Tuesday afternoon. Four other drivers were stopped by Patrolman William Lockery. Two were discharged, and two others, being non-residents, were given warning not to repeat the offense.

# Leeman Honors War Veterans With Monument

L. Hugo Keller and H. J. Penning made the dedicatory speeches at the unveiling of the soldiers' monument at Leeman in the town of Maine on Sunday. The monument was erected by the town square. It took two years to raise money to purchase and erect the monument.

After the dedication, the Royal Neighbors served the dinner in the town hall. Those from Appleton attending the service were A. C. Bosser, George Merkel and J. M. Fisher.

**Plan For Meeting**  
Directors of Appleton Chamber of Commerce will hold their regular meeting in the chamber rooms Wednesday evening. A number of important matters will be up for consideration, including arrangements for the monthly forum dinner Dec. 15 at which the managerial form of city government will be discussed.

# APPLETON SHARE OF COUNTY STATE TAX CUT \$14,000

Total Tax Levy In Appleton For County And State Is \$213,762.53

Appleton's share of the state and county taxes this year will be \$213,762.53, according to the tax apportionment just completed in the office of John E. Hantschel, county clerk. Hantschel and his assistants, after receiving the tax levy from the county board Saturday noon, worked in the apportionment Saturday evening and all day Sunday in order to have the list ready for the towns, villages and cities by Monday. All town boards are required by law to meet Tuesday in order to make the local tax levies.

The combined state and county taxes for Appleton this year are more than \$14,000 less than last year, the total tax last year being \$228,732.15. A greater reduction would have been possible, but for an increase by the county board in the percentage of Appleton's tax compared with that of the entire county. This was raised from 21.90 to 23.15 per cent.

**SMALLER COUNTY TAX**  
Appleton's share of the state tax this year is \$34,394.82, which is nearly \$3,000 less than last year. The special state charge on the city for state, penal and charitable institutions is \$2,127.23, or more than \$1,000 greater than last year. The tax for county schools is \$21,740.50, or about \$300 less than last year. The county tax proper is \$184,430.08, as compared with \$167,627.31 of the preceding year. Following is the total tax, including state, county and county school taxes, for all towns, villages and cities in the county:

Appleton \$213,762; town of Black Creek, \$15,576; village of Black Creek, \$4,044; Bovina, \$10,222; Buchanan, \$15,059; Bear Creek, \$2,725; Center, \$22,502; Cicero,

\$18,017; Dale, \$23,259; Deer Creek, \$12,370; Ellington, \$15,906; Freedom, \$22,903; Grand Chute, \$29,857; Greenville, \$23,201; Horton, \$8,518; Hortonville, \$7,953; town of Kaukauna, \$10,807; city of Kaukauna, \$33,334; Kimberly, \$29,732; Little Chute, \$11,641; Liberty, \$7,109; Moline, \$7,778; Maple Creek, \$11,835; New London Third ward, \$8,862; Oneida \$10,487; Osborn, \$10,026; town of Seymour, \$15,569; city of Seymour, \$12,428; Shiocton, \$3,977; Vandenbroek, \$8,371; Combined Locks, \$16,131. Total \$678,739.45.  
The county tax roll is as follows: State tax, \$103,661.29; county general tax, \$68,750; county schools, \$29,255.18; illegal real estate taxes charged back, \$2,778.12; mothers' pensions, \$50,000; state charitable institutions, \$2,636.02; retiring bonds and interest, \$165,204.90; county and town aid roads, \$9,000; highway 2 mill tax, \$192,495.74; bridges, \$6,653.79; county superintendent of schools, \$1,183.97; special taxes, \$50,14; state charge on school districts, \$13,931.65; uncollected personal property taxes charged back, \$218.67.

## Quick Relief for Rheumatics

Local Druggists Sell Rheuma on Money-Back Plan

If you suffer from torturing rheumatic pains, swollen, twisted joints and suffer intensely because your system is full of uric acid, that dangerous poison that makes thousands helpless and kills thousands years before their time, then you need Rheuma, and need it now.

Start taking it today: in 24 hours it will begin to act on kidneys, liver, stomach and blood, and you can sincerely exclaim: "Good riddance to bad rubbish."

Many people, the most skeptical of skeptics right in this city and in the country hereabouts, bless the day when Schlitz Bros. and other good druggists offered Rheuma to the afflicted at a small price and guaranteed money refunded if not satisfied. If you have rheumatism get a bottle of Rheuma today.

## 2 APPLETON GIRLS WIN SCHOLARSHIPS

Notice has been received by W. S. Ford of the vocational school that the Grade B scholarships have been awarded to two Appleton students, Viola Girard and Marie Parker. These scholarships are given by the state board of vocational education and amount to \$15 a month for ten months. This will permit the pupil to attend school full time. It was also stated that these scholarships will be paid back to Sept. 1, so that full benefit will be derived by the student.

## 40 SOUGHT PERMITS TO BUILD GARAGES

The number of garage building permits issued in Appleton during the month of November exceeded the number of residence permits two to one. The total number of permits issued was 49 of which 11 were for residences and 22 for garages. Seven were miscellaneous. The total estimated expenditure was \$43,000. May was the high month when permits to the amount of \$75,561 were issued and March the low month with a record of \$18,165. March was like the first month permits were issued.

**The Best Cough Syrup is Home-made.**  
Here's an easy way to save \$2. and yet have the best cough remedy you ever tried.  
You've probably heard of this well-known plan of making cough syrup at home. But have you ever used it? Thousands of families, the world over, feel that they could hardly keep house without it. It's simple and cheap, but the way it takes hold of a cough will soon earn it a permanent place in your home.  
Into a pint bottle, pour 2½ ounces of Pinex; then add plain granulated sugar syrup to fill up the pint. Or, if desired, use clarified molasses, honey or corn syrup instead of sugar syrup. Either way, it tastes good, never spoils, and gives you a full pint of better cough remedy than you could buy ready-made for three times its cost.  
It is really wonderful how quickly this home-made remedy conquers a cough—usually in 24 hours or less. It seems to penetrate through every air passage, loosens a dry, hoarse or tight cough, lifts the phlegm, heals the membranes, and gives almost immediate relief. Splendid for throat tickle, hoarseness, croup, bronchitis and bronchial asthma.  
Pinex is a highly concentrated compound of genuine Norway pine extract, and has been used for generations for throat and chest ailments. To avoid disappointment ask your druggist for "2½ ounces of Pinex" with directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Ft. Wayne, Ind.

# COUNTY SURE OF STATE CLEANUP OF BOVINE T. B.

## Sufficient Signatures To Assure Area Test Secured By 150 Workers

Outagamie is to have a county-wide cleanup of tuberculosis among cattle, conducted by the state.

An announcement by R. A. Anderson, county agent, last week, reported to the county board, that the campaign has taken one of the most drastic and important steps in the county's history for advancement along health lines. It is the more important because the individual consent was required from at least 250 farmers, or other cattle owners. Actual count reveals 250 signatures to the petition, with 11 school districts to hear from.

**150 WORKERS**

One hundred fifty committeemen in the various townships have worked for months to accomplish this task. Intensive work has been done in each school district and many meetings have been held at which the menace of tubercular cattle has been pointed out, and the financial loss to the owner of diseased cows revealed.

There are 3,500 farms in the county and about 100 cattle owners who live in cities or villages. Signatures of 50 per cent of this number were required, and the amount is well over that minimum with other farmers due from various districts.

Under an arrangement with the state department of agriculture any county that submits a petition from 50 per cent of its cattle owners is entitled to the area test for tuberculosis. The department will send a corps of veterinarians to any county, after the petitions are submitted and approved and herds will be tested free of charge.

**DISEASE-FREE COUNTY**

Every herd in the county must submit to the test, and the animals that react to tuberculosis will be slaughtered under federal supervision and shipped to stockyards to be used for tankage, an ingredient that goes into commercial fertilizer. Once a county has been rid of diseased animals tests are made at regular intervals to keep tuberculosis from reappearing a herd. All cattle that are shipped into the

county must be certified as free from disease.

Outagamie co board was in favor of the area test and instructed its members to push the circulation of petitions. Mr. Anderson was engaged as county agent about the time the movement was shaping, and the first definite task assigned to him by the board was that of bringing this matter to completion. The county agent himself is a strong advocate of "clean" herds and worked ardently with the farmers everywhere until well filled petitions began pouring into the county clerk's office.

Mr. Anderson gives much of the credit to the committee of 150, the Outagamie union of the American Society of Equity, the county board and the press.

Two years probably will elapse before the area test is completed here, Mr. Anderson says, because the applications of several other counties are before the state and these localities must be tested first. The testing itself takes a long time, as the state veterinarians arrive.

Committeemen of various townships who obtained the signatures to the petitions were:

# LIONS ORGANIZE NEW CLUBS IN WISCONSIN

Several Appleton members of the Lions club will attend the joint meeting of Lions clubs of this locality. Fond du Lac on Dec. 5. The meeting will include besides Appleton and Fond du Lac, the newly organized club at Oshkosh.

That the Lions club has experienced a phenomenal growth in Wisconsin was evidenced by Dr. J. A. Holmes, district governor, at a recent meeting in Sheboygan. He said that in 18 months, 21 clubs have been formed in this state. Those already chartered include Appleton, Ashland, Eau Claire, Fond du Lac, Green Bay, Janesville, La Crosse, Madison, Manitowish, Milwaukee, Racine, Saebygan, Superior, Two Rivers, and Wausau. Clubs which will receive charters shortly include Beloit, Waupun, Port Washington, Plymouth and Sheboygan Falls.

The district convention will take place in Green Bay in May. It is expected by the district governor that with the increase in the number of clubs in the state there will be a large number of delegates in Green Bay at that time.

YANKS ASK WAIVER ON PITCHER MAYS

Huggins Seeks Services Of Urban Schocker If Browns Put Him On Market

New York—Miller Huggins, managing director of the New York Yankees, declared on Monday that while he expected to stand pat on his present lineup for the 1924 campaign, he was open to any deal which might strengthen the club. Huggins asserted he would bid for the services of Urban Schocker, St. Louis pitcher, if the Browns put him on the market, but declined to disclose what offer he might make. Huggins traded Schocker to St. Louis in 1922.

Waivers have been asked on Carl Mays, it was revealed by Huggins, who said that all American league clubs had waived but that three National league teams had filed claims for the "submarine ball" twirler. It is possible the Yankees may arrange a deal which will send Mays to the senior circuit, where Huggins believes he might regain his effectiveness.

The Yankee leader, who returned to New York on Monday for the first time since the world's series, said he also was in the market for a right-handed hitting outfielder.

The Yankees probably will train at New Orleans where they have conditioned for the last two years. Huggins intimated, however, that San Antonio and Shreveport, La., were also being considered.

The Yankee pilot will attend the baseball meeting in Chicago next week and then go to St. Petersburg, Fla., for the winter.

SPORT VIEWS AND NEWS

Red Dunn, famous as a football player at Marquette "U" and named for the quarterback job on several All-Western teams, is a member of the Fond du Lac Badgers basketball aggregation. Dunn is as much at home on the eging court as on the gridiron. He should be a great drawing attraction for Fondy.

Myra Basing pulled one for the books last Thursday. In the afternoon he performed in the backfield for the Packers against Hammond at Green Bay, while in the evening he held down a guard position at Xenia against the Legion. He went good in both games.

Roy Conley doesn't let the dust settle on his feet between fist encounters. Last Friday night he knocked out Jack Monahan of Milwaukee in five rounds at Fondy and this coming Friday the "Parson" will swap punches with Buddy McDonald of Minneapolis in a Green Bay ring.

Doc Delmore, the State league catcher, has rounded up a likely looking aggregation of basketballers at Two Rivers and his club is booking games with the best teams in the state. Delmore has several former Marquette stars in the lineup. They face the Green Bay Bents Friday night.

The Wisconsin Bowling association is losing no time heralding the news far and near about the tournament at Janesville. Billy Feinske is using a "wicked" pen in boosting the pin classic and, if advance dope counts for anything the 1923 alley meet will be a record breaker in every respect.

Marinette reached the peak of its football success Thanksgiving Day when the Northerners defeated Rockford High, claimants of the Illinois championship by the score of 14 to 12. It was a great victory for Coach Johnson as he was formerly a grid mentor at the Illinois institution.

Waukesha sort of upset the dope when it took the mighty La Crosse High eleven to a camp by the score of 14 to 13. The "Sprinklers" battled their more beefy opponents off their feet and marked up their yardage when it was needed for a touchdown. A hold inn penalty cost La Crosse a tie game.

With football over, three teams in the state are undefeated. Marinette, Waukesha and Racine were the "perfect record" scholastic aggregations. Naturally each of these eleven are claiming championship honors. Why not cut the glory three ways and give each of the schools a slice. Fair enough.

Oshkosh Normal's team, winners of the state teachers' title, was composed mainly of former high school stars from this neck of the woods. A waukesha City product, while Stubben, will the 1924 gridiron helmsman hangs his hat in Shawano during the off months.
